

Summary

Motivated Full Stack Developer and MERN Stack Enthusiast with hands-on experience building scalable web applications, AI-powered platforms, and real-time systems . National-level hackathon finalist with proven problem-solving, rapid prototyping, and teamwork abilities. Passionate about Generative AI, scalable architectures, and building impactful digital products using modern technologies.

Work Experience

Software Developer

TECHSERVE NEXUS

Sep 2025 - Dec 2025

- Contributed to the development of scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Worked in a collaborative development environment using Git/GitHub and Agile workflows.

Education

BCA

GD Rungta college of science and technology

2023- 2026 · Bachelor Of Computer Applications (BCA)

Pursuing BCA with practical experience in MERN Stack development, REST APIs, cloud deployment, and AI-powered web applications through projects and hackathons

Projects

ICS Network Intrusion Detection System

- Developed an AI-powered Intrusion Detection System for Industrial Control System (ICS) networks to identify and monitor cybersecurity threats in real time.
- .

5G Network Channel Estimation System

- Developed a system focused on channel estimation techniques in 5G communication networks for improving signal performance and transmission accuracy.

Lumina Business Website

- Designed and developed a modern responsive business website with focus on clean UI/UX and performance optimization.

Achievements

National Hackathon Finalist

Achieved finalist positions in multiple national-level hackathons including FlashHack 2025, Tech Sprint 48, CIH 2.0, and CIH 3.0.

Frontier AI Hackathon – 2nd Runner-Up

Secured 2nd Runner-Up position at Frontier AI Hackathon through the development of innovative AI-based solutions, showcasing expertise in Generative AI and system design

Top Performer – Google Cloud Study Jams 2025

Recognized among the Top 100 students in Google Cloud Study Jams 2025 for active participation, cloud technology learning, and technical engagement in the Google Cloud ecosystem.

Tech Community Leadership & Event Management

Led and organized multiple technical events, workshops, and community initiatives including Techstars Startup Weekend Dhamtari 2025, Web Scraping Workshop, and Google Cloud AI Labs Raipur.

Student of the Year Award

Honored with the “Student of the Year” award for demonstrating excellence in academics, technical innovation, leadership, hackathon participation, and contributions to student and technology communities.

Skills

- React.js
- Next.js
- javascript
- node.js
- Express.js
- Rest APIs
- Git & Github
- Google cloud
- Firebase
- Prompt Engineering
- GeminiAI API
- Deployment
- MERN Stack
